Tamaño de área 0.00 m²

Más información

Located in the charming and picturesque village of Portocolom, Mallorca, this plot offers an excellent opportunity for those seeking an investment in one of the island's quietest and most privileged areas. Located just steps from the sea and close to a wide variety of amenities such as restaurants, supermarkets, and shops, this plot combines convenience, tranquility, and a Mediterranean lifestyle. The plot has a license for a single-family home distributed over a basement, ground floor, first floor, and swimming pool. The original project has been modified to build two independent apartments: one on the ground floor and one on the first floor, in addition to a garage and additional space in the basement, with a shared swimming pool that enhances the property's contemporary design. Currently, the structure and foundations are complete, providing a solid base for final construction. To continue and customize this project, the building license will need to be renewed. This property offers endless possibilities, both for personal use and as an investment, in an idyllic setting that combines the tranquility of a coastal town with proximity to amenities and leisure options. Don't miss this opportunity to build your home or business in Portocolom!
